

DEATH STARES HIM IN THE FACE

It is Believed That Czolgosz Will Be Executed Oct. 25.

NO APPEAL LIKELY

Father and Sister of Assassin Were Allowed to Visit Him Today.

HE SHOWS HIS TERROR

Buffalo, Sept. 25.—The father, sister and brother of Czolgosz had a half hour's interview with the prisoner this morning. The assassin expressed no regret for his crime and showed no emotion. His visitors, however, cried bitterly. The father denounced him for bringing disgrace on the family. The son bore the father's reproaches without a murmur. The prisoner reiterated that he had no accomplices.

It is practically safe to say that Czolgosz will be electrocuted about October 25. His attorneys will make no appeal. The sheriff is anxious to get rid of Czolgosz.

It is said that the papers for his commitment to Auburn prison are already made out and that as soon as the sentence is pronounced he will be taken to the train. Czolgosz spent a good night.

Will Be Sentenced Tomorrow
Buffalo, Sept. 25.—Eight hours and twenty-five minutes was the actual time occupied by the trial of the Czolgosz case and the deliberations and return of the jury. Eighteen days had elapsed from the shooting of the president and ten days and fourteen hours since his death.

Tomorrow the assassin will be sentenced to death. No witnesses were sworn for the defense. Not a word of evidence was before the court as to the sanity of the prisoner. The experts who examined him were not called. The court instructed the jury that he proof of insanity is with the defendant; that a man must presume to be sane unless proved insane. To the assassin was offered the opportunity to go on the stand, but he only shook his head when his lawyers asked him. He did not trust himself to speak.

Assassin Shows Terror
The unaccounted murderer of Tuesday had changed. His pallor had changed from white to yellow. His hands shook. He curled his eyes with the lids and sat with his head hanging on his shoulder, a nervous perspiration oozing out of his face and hands. In remaining mute throughout the assassin found a way to hold his composure, but this afternoon in court he was a most miserable picture. No bravado, no courage, no defiance of death, not the glorification of the anarchist "who did his duty," just a cur-like collapse.

"He will be dragged to the death chair howling with terror," said Chief of Detectives Cusack, who has studied him since his arrest. And the fear that was written all over the assassin lent itself to the prediction.

Sat With Eyes Closed
While Justice White was delivering his charge to the jury the sky suddenly seemed to grow dark. Clouds blew up from the lake and rain threatened. Czolgosz glanced fearfully at the twelve men standing in their places in respect to the solemn words of the court. He signed for water and the detective brought him a glass. He gulped at it, handed back the glass and dropped his eyelids again. All day he sat with his eyes almost closed as if he would shut out the scene.

From time to time he would plunge his left hand into his coat pocket, bring out his handkerchief, and mop his face. He opened his eyes quite wide when the judge turned from the jury and the tramp of feet told him that the jurors were to retire. The assassin showed no emotion when the verdict was announced, but he looked as if he were on the verge of physical collapse.

Czolgosz May Speak Thursday
Czolgosz has indicated to the guards who attend him that he will have something to say on Thursday, when, according to the forms of justice, he is asked if he has anything to say why sentence should not be pronounced. He may then make some declaration of his motives, but he will have to recover his self-possession beyond what it is today.

AWFUL VENGEANCE BY A HUSBAND

Omaha Man Finds His Wife in a Questionable Resort, Shoots Her and Cuts His Throat.
Omaha, Neb., Sept. 25.—R. P. Sleeper, a night foreman employed by the Omaha and Grant Smelter company, married Miss Lulu Maud Everingham, aged 18, last Thanksgiving day. Last night he found her in a fashionable but questionable resort, after breaking into the place. He turned a revolver upon her, injured her fatally, wounded another occupant called "Goldie" Adams. He then threw the empty revolver upon the floor and pulling a small knife from his pocket slashed his throat repeatedly. He will probably die.

THE TAPE MEASURE AIDS CHALLENGER

Columbia Gets Only 43 Seconds' Time Allowance Over the Course of Thirty Miles.

New York, Sept. 25.—The official measurements of the cup challenger Shamrock II and the cup defender Columbia were made public last night at the New York Yacht club. The result was in the nature of a surprise, for it showed that Shamrock, which is the larger boat so far as sail area is concerned, allows only 43 seconds to Columbia over the thirty mile course on which the contests for the America cup are to be sailed. Shamrock has a shorter water-line length, has a longer spinnaker boom, a longer gaff, a longer topmast, and carries more canvas. Mr. Watson, the designer of Shamrock II, by keeping down the load water-line length of his yacht, has got the better of his rival, Mr. Herreshoff. The sail area of the Shamrock is larger, and by judicious handling of his spars Mr. Watson is only penalized 43 seconds.

RACES AT BELOIT WILL OPEN TODAY

Best Bunch of Racing Horses Ever Brought Together in This Part of the Country.

Beloit, Wis., Sept. 25.—The three days' race meet of the fair association begins this afternoon and never were prospects brighter for a successful meeting. It is stated by men in authority and without fear of contradiction that there is now at the track the best bunch of racing horses ever brought together in this part of the United States, and it is confidently expected that each and every race will be a hot one in all senses of the word. The track record of 2:17 will be burned out before an hour's racing and it will occasion no surprise if it is set at 2:10 before the end of the meet.

There are now seventy horses at the track and they are the prettiest lot one could imagine. It is understood that Jefferson failed to fill a single class at their fair last week. The horsemen all made for Beloit because the track and training quarters are ideal and because they are treated royally while here. The track is in the finest possible shape having been worked and sprinkled for a week, and the trainers have been reeling off some fast miles every day.

The crowd is expected to be large, assurances having been received from towns in every direction to that effect. A special train will be run from Freeport way.

Ex-Sheriff "Billy" Appleby of Janesville will be the chief of the police on the grounds and that is a guarantee that excellent order will be preserved throughout the week.

Chief of Police George Appleby, of Beloit says no gamblers will be allowed to operate in the city—in fact, they will be escorted out of town as fast as they arrive—and it is positively stated that no grafts will be tolerated on the grounds.

OFFICERS ARREST NINETY ANARCHISTS

Entire Population of Home Colony, Wash., Held at Tacoma by Federal Authorities.

Tacoma, Wash., Sept. 25.—Acting under instructions from Federal Judge Hanford, the revenue cutter Grant left here for Delance Beach, twelve miles distant, and arrested and brought here to await a hearing the entire community of anarchists known as the Home Colony, including men, women and children, ninety in number. They are anarchists and free lovers, chief of whom is James Morton, formerly editor of the National Anarchist paper, now published in Chicago.

UNIONS CONDEMN ANARCHISTS

Indiana Federation of Labor Adopts Resolutions on Subject

Brazil, Ind., Sept. 25.—The state Federation of Labor began a convention here today with 200 delegates present. Mayor Bailey delivered the address of welcome for the city, and former Representative Edward Cutty for the local labor unions.

A committee was appointed to draft resolutions condemning anarchists and asking congress to pass stringent laws to suppress their violent acts.

The convention also decided to take immediate steps to secure the enforcement of the present labor laws.

WISCONSIN INCREASES SCORE

Minnesota Artillerymen Outclassed in Contest at Lake City

Lake City, Minn., Sept. 25.—The second day of the big artillery duel between Wisconsin and Minnesota has placed the badgers still farther ahead. At the close of yesterday's firing the score stood 29 to 10 in favor of Wisconsin. The firing took place during the afternoon, with a steady gale blowing, each team being given twenty four shots, four of which were preliminary. Wisconsin scored nineteen points and Minnesota ten.

Elect Treat Vice President
Madison, Wis., Sept. 25.—N. B. Trent of Monroe, a member of the state board of control, was elected last night vice president of that body.

AN INCREASE IN THE STATE TAXES; BOARD RAISES THE ASSESSMENTS

Tax Commissioners Advance the Realty Almost a Million Dollars—Levy for School Purposes More Than Doubled—Rock Co. the Third Highest.

Madison, Wis., Sept. 25.—The tax commission, sitting at the state board of assessment today completed its assessment of the taxable property of Wisconsin and turned the figures over to the secretary of state. The total assessment has been raised from \$630,000,000 to \$1,436,284,000, an increase of \$806,284,000 or about 133 1-3 per cent. The increase in state taxes will be \$937,234.

This assessment is used as the basis for apportioning the state tax among the various counties, just as the assessment of the county board is used as a basis of apportioning or equalizing the taxes between the towns of the county. It in no way has anything to do with the amount of taxes to be raised for general purposes, that being determined entirely by the legislature. The assessment is made at full value in order that the equalization may be more justly and easily made between the different assessment districts.

This is the first year that a tax has been levied for the aid of graded schools. While some of the laws under which the levies are made for the purposes enumerated were also passed last winter, they simply take the place of the old laws.

The state debt is \$2,251,000 and the rate of interest is 7 per cent. The levy for this purpose will therefore not vary until the debt is reduced.

The levy for common school purposes has been gradually increasing. In 1885 it was \$188,139. During the four years prior to 1889 it was just an even \$600,000. In 1889 it was \$625,000, and last year \$630,000. Next year it will be more than doubled.

During the last session of the legislature there was considerable discussion of the law providing for a 1-mill tax for common school purposes and an attempt was made to limit the tax to \$850,000 should the assessment raise it above the figure. The attempt failed, however.

The new assessment of property in the state follows: Value of real estate, \$186,349,139; value of personal property, \$249,934,861. Total, \$1,436,284,000.

In a list of realty values by counties Milwaukee heads the list with \$351,759,129; Dane is second with \$66,003,778 and Rock third with \$49,791,062.

Kenosha, Wis., Sept. 25.—The Unitarians of Wisconsin are planning a great rally to be held in this city on the evening of October 27, which date has been set for the public installation of Miss Florence Buck as pastor of the Unitarian church here.

The installation sermon will be preached by the Rev. Samuel A. Eliot of Boston, a son of President Eliot of Harvard college, and the president of the United States society of Unitarians. The Rev. Edward Everett Hale of Boston, the Rev. Henry Simmons of Minneapolis, the Rev. Jenkin Lloyd Jones of Chicago, the Rev. Mr. Hodgins of Milwaukee and the Rev. C. A. Greer of Racine will also be present.

BADGER STATE PRESS EXCURSION

A Trip to Points in the South, Including Hot Springs, Memphis, Vicksburg and New Orleans.

Baraboo, Wis., Sept. 25.—President Ed. L. Luckow announces that arrangements have been made for the annual excursion of the Wisconsin Press association. The party will leave Chicago on Monday, October 28, at 6:10 p. m., over the Illinois Central railroad, on a trip to points in the south not heretofore visited by the association. The places of interest will include Hot Springs, Ark.; Memphis, Tenn.; New Orleans and Hammond, La.; Vicksburg and Jackson, Miss. Returning they will reach Chicago on Thursday, November 7 at 10:50 a. m. Circulars giving further particulars will be issued to members of the association as soon as all arrangements have been completed.

ADDS 5 PER CENT TO WAGES

Cloth Company Gives Employees the Benefit of Better Market

Fall River, Mass., Sept. 25.—Notices were posted in the mills of the M. C. D. Borden company this morning that because of the recent advance in the price of print cloth the wages of the operatives would be increased 5 per cent, the schedule to go into effect on October 1. Three thousand hands are employed. The officials of other mills which employ 21,000 hands say they cannot make a similar advance.

SCHLEY COURT IS SITTING AGAIN

ADMIRAL IS CLAD IN MOURNING

Admiral Cotton Tells How He Delivered Dispatches to the Commander of the Brooklyn From the Department Which Were Not Obeyed.

Washington, Sept. 25.—Admiral Schley and counsel were in mourning when they entered court today. A new series of charts were sent in this morning for the information of the court. Commander Hellner, navigator of the Texas, was recalled to correct his testimony of Monday.

Chief Machinist Claxton of the Texas was then called. He testified that during the first hour of the battle he was ordered to reverse his engine, which was done for about two minutes. The object of calling Claxton was to show that not only the starboard, but likewise the port engine was reversed to avoid a collision with the Brooklyn.

Admiral Cotton, who commanded the scout boat Harvard during the war was the next witness. He testified that on May 27th, the day Schley or-

LYNCHING IS HELD TO BE ANARCHY

Booker T. Washington Declares in Assassination the Nation Reaps What It is Sowing.

Tuskegee, Ala., Sept. 25.—Booker T. Washington of the Tuskegee Normal and Industrial institute has given out a statement in reference to the assassination of President McKinley, in which he says:

"In all sincerity, I want to ask, is Czolgosz alone guilty? Has not the entire nation had a part in this greatest crime of the century? What is anarchy but a defiance of law, and has not the nation reaped what it has been sowing? According to records 2,516 persons have been lynched in the United States during the last sixteen years. There are or have been engaged in this anarchy of lynching nearly 125,800 persons.

"If William McKinley, as he was offering up his life in behalf of the nation, could be brave enough, thoughtful and patriotic enough to request that his assailant should be fairly and honestly tried and punished, surely we can afford to heed the lesson."

GEN. MACARTHUR TELLS OF MANILA

Declares at Milwaukee That Imperishable Ideas Are Being Planted in the East.

Milwaukee, Wis., Sept. 25.—General MacArthur was accorded an informal reception by the Chamber of Commerce yesterday, and he made a brief address, in which he said in part:

"To my mind the beauty of our possessions at Manila lies in the planting of American ideas of beneficence in the Eastern world. We are planting imperishable ideas in that great Eastern country. We are carrying the doctrine of personal liberty there, and wherever the flag of the United States is once planted it is going to stay forever.

"The conditions there are favorable for the ideas of a republic."

REMOVE BODY OF ABRAHAM LINCOLN

Remains of the Martyred President To Be Buried for All Time Under Present Vault.

Springfield, Ill., Sept. 25.—The remains of Abraham Lincoln will soon be put away for all time, never to be disturbed again, in accordance with the wish of his son, Robert Lincoln. An excavation fifteen feet deep is being made beneath the vault where they now rest, and in this the casket will be placed. It will be surrounded by an iron cage which is to be imbedded in and made a part of a solid concrete block eight by eight feet and thirteen feet long. The transfer will be made after the return of Governor Yates.

This will make the twelfth removal of the body.

CAME NEAR LOSING A VALUABLE HORSE

W. S. Pond had a close call to losing a valuable horse yesterday afternoon and also having his buggy demolished. He was sitting in his buggy on East Milwaukee street in front of H. S. Johnson's store, his horse facing towards the east. One of Cape & Sons teams hauling a load of gravel from Bluff street was coming down the street. When the horses on the gravel team were about even with Mr. Pond's horse the chain on the neck yoke broke allowing the horses to go back against the wagon and letting the pole swing around and run directly under Mr. Pond's horse just grazing its body. The gravel wagon being on a down grade ran by its own weight in next to the curb and soon had Mr. Pond's horse and buggy and the two horses and the gravel wagon mixed up in what looked to be a bad mess. The bystanders rushed to the assistance of the parties mixed up in the accident and succeeded in getting things straightened out without much damage being done.

THREATEN TO TAR DR. BENSON

Avowal of Anarchism by La Crosse Physician Causes Anger

La Crosse, Wis., Sept. 25.—When the avowal of anarchism made by Dr. A. M. Benson, before a meeting of the Hamilton club last night, became known today, several attempts were made to organize mobs to tar and feather him. Humane Officer S. Bowlby headed the most determined of these, but all were quelled by the police before any violence was done.

Dr. Benson says his remarks were misinterpreted. Other members of the club say, however, that this is impossible. The doctor will be tried before a meeting of the Franklin club next week.

To Sell Cotton Mills

At a meeting of the stockholders of the Janesville Cotton Mills held yesterday afternoon it was decided to dispose of the machinery and the balance of the property to the best advantage of all concerned. The directors were instructed to sell the machinery and the balance of the plant, either whole or in part to the highest bidder. Several offers have already been made but were too small to be considered.

BOERS TOO POOR TO COME OVER

Plan for Making a Plea to President Roosevelt Changed.

EXPENSE IS GREAT

Has Been Decided That He Be Approached Through Montague White.

BOERS ARE RETIRING

The Hague, Sept. 25.—It has been learned that for a time President Kruger hoped to send a special mission to President Roosevelt, but the idea is not likely to be carried out owing to the great expense involved. It is to the difficulty of securing a suitable representative. The expenses incurred since Mr. Kruger came to Europe have reduced the Transvaal funds to a small sum. In fact, some of the Boers here are even destitute, and all of them agree that Mr. Kruger has scarcely enough for himself. It is not believed that he could go to Washington, as since the death of Mrs. Kruger he has not been the vigorous man of quick decision he was formerly. The course probably to be adopted will be that Montague White will be instructed to approach the United States government, and Mr. Kruger and the others will take no action pending the result of Mr. White's endeavor. Dr. Kuyper, president of the ministerial council and minister of foreign affairs, declared in Parliament today that the new ministry did not intend to take any action favoring the Boers, but would accept the situation as left by the preceding cabinet.

Arbitration Court Helpless.

Brussels, Sept. 25.—It is authoritatively stated that the permanent council of the International Court of Arbitration will declare itself incompetent to deal with the appeal of the Boer delegates for arbitration.

Kitchener Says Boers Retire.

London, Sept. 25.—The war office has received a dispatch from Lord Kitchener stating that the latest information from Natal is to the effect that the Boers who have been raiding there are returning to the eastward and northeastward. The result of the government invitation to the imperial yeomanry to re-enlist has proved a great disappointment. It was expected that a majority of the men would rejoin. Instead of this the first week witnessed only thirty applications. New measures will have to be taken to secure recruits. The trouble is largely due to the fact that the men had to wait for months before getting their arrears of pay settled.

Rushed De Larey's Camp

Cape Town, Sept. 25.—Fifty fusiliers rushed De Larey's headquarters at Duckersfontein on the eighteenth, but De Larey, his staff and family had fled over night. The Boers have obtained many recruits in the Sutherland district of Cape Colony.

COLUMBIA STILL 5 TO 4 FAVORITE

Within 24 Hours the Columbia and Shamrock Will Be Jockeying for Position Off Sandy Hook.

New York, Sept. 25.—Within twenty-four hours the Columbia and Shamrock will be jockeying for a start in the first international yacht race off Sandy Hook. The Shamrock, which went into dry dock yesterday to have some forward rivets refastened was floated at three o'clock this morning and immediately left for the Horse Shoe. Interest in tomorrow's race is picking up. The Columbia is still a 5 to 4 favorite. Several large wagers at this figure were made.

MT. MCKINLEY RISES OVER ALL

Highest Peak in North America Named for the President

Yankton, S. D., Sept. 25.—It is not generally known that the highest mountain in North America is Mount McKinley of Alaska—20,464 feet high—over 2,000 feet higher than its nearest rival, Mount St. Elias, which was thought to be the highest mountain on the continent until a few years ago.

The name of Mount McKinley was formerly "Bulshai." Careful measurements established its claim to the premiership among the mountains of North America, and its name was changed to Mount McKinley as a compliment to the president of the United States.

OFFICERS TO WEAR MOURNING

G. A. R. Ordered to Pay Tribute to Memory of McKinley

Minneapolis, Sept. 25.—Ell Torrance, commander in chief of the G. A. R., issued general order No. 1 today. It is devoted to a tribute to the memory of President McKinley. It is ordered that the department and post headquarters be appropriately draped and that all officers of the G. A. R. while on duty wear the usual badge of mourning for the next sixty days.

RAPID RISE OF "TOM" SHAUGHNESSY TO THE POSITION OF KNIGHTHOOD

"Tom" Shaughnessy.
Third ward ward.
Railway office land.
Stock clerk, Milwaukee road.
Chief clerk of supplies department.
General storekeeper of Milwaukee road.
Alderman of the city of Milwaukee.
President of the common council.
Purchasing agent of the Canadian Pacific.
General superintendent.
General manager.
President.
Knight.

Sir Thomas G. Shaughnessy.
This is the story, briefly told, of the career of a Milwaukee boy, born and brought up in the Third ward, trained for business in the schools of Milwaukee, initiated into the railroad business in the service of the Milwaukee road—the story of "Tom" Shaughnessy, who has just been created a Knight Bachelor by His Majesty, Edward VII. King of England, says the Milwaukee News.
Writers of fiction would scarcely dare to depict a career such as has been achieved by this Milwaukeean in real life. The story possesses a romantic interest which is seldom surpassed between the covers of story books. Yet there is nothing "romantic" about T. G. Shaughnessy himself, and the details of his climb upward from the most humble and obscure beginning to such a height, are merely a story of hard work—drudgery and slavery is what too many a young fellow of today would term it.
It was less than half a century ago in 1853, that a wee baby boy was born to Mr. and Mrs. Thomas Shaughnessy, at their home in the famous Third ward. He grew up with the other lads, running around barefoot like any other youngster, and showing no indication of the possibilities

of his future. When old enough he was sent to St. Gall's school and the public school, and he afterward attended a business college.
Then he entered the offices of the Chicago, Milwaukee & St. Paul road, and from the first he showed an aptitude for the business. A clerkship in the stock room was followed by the position of chief clerk of the supplies department, and then he was made general storekeeper for the entire system. He was then but twenty-six years of age.
Despite his devotion to his duties he found time to interest himself in politics, and was chosen to represent the Third ward in the common council when scarcely twenty-one years old. He was selected to preside over that body as its president, also. In 1882, when but 29 years of age, he was offered the position of purchasing agent for the Canadian Pacific road, and left his home for Montreal, where he has resided ever since. He married there, and has a family of seven children. His progress upward has been steady, and after about five years he was made general superintendent of the system, then he became general manager, and three years ago he was elected president, and has since directed the entire business of the big company.
Sir Thomas' father and mother still reside in Milwaukee, at 97 Twentieth street, and were overjoyed last night, when at a late hour they received this message from their son.
"Montreal, Sept. 19, 1901.—Thomas Shaughnessy, 97 Twentieth Street, Milwaukee, Wis.: You may be gratified to know that His Majesty has conferred upon me the honor of knighthood. One owes a great deal to a good father and mother."
"T. G. SHAUGHNESSY."

THE HIGH ROLLERS AT MYERS GRAND

"Do you love me?" she cried hoarsely, as she raised her white jeweled hands pleadingly. He drew back hastily, so astonished was he at her despairing look. Then he drew her to his throbbing breast and pressed her moist, red, quivering lips. There was an agonized look, like that of a wounded fawn, in the hazel eyes which slowly filled with tears. "You know that I love you," he replied earnestly. "Have I not proved it to you in a thousand different ways?" "Then why deny me this one request?" His face was dark with passion and he strode moodily up and down the dainty little apartment where they had passed so many happy little hours. He had never wandered from that cozy fireside before, and he had promised himself over and over again that day that he would never again, but the spell was upon him and he felt that at any sacrifice he must see them again, and in a moment of weakness he had phoned that a seat be held for him in the left box. "Listen," she pleaded, "You know that I love you. I would cling to you through poverty, sickness and the direst forms of distress. I would lay down my very life for you, gladly, willingly." He laughed bitterly and rose to depart. She was very white. "Very well, then," she said, and the light of of inexorable resolve shone in her eyes. "Very well, then, if you go we must part forever." He stood upon the threshold now. "So be it, then," he said, as he stifled a sob. "Good-by for the last time. I must go to see the High Rollers again," and he did. He sat in that left box at the Myers Grand Saturday evening, the very personification of a being totally oblivious of everything in the world save the performance and wondrous beauty of The High Rollers.

IT MAKES BURPEE FEEL VERY HAPPY

For the third time the city has come out victorious in the case of Ann Collins vs. the City of Janesville. The supreme court yesterday handed down a decision reversing the decision of the Dane County circuit court when the plaintiff was awarded \$2,800 damages.
This is an action to recover damages for a personal injury alleged to have been received on June 5th, 1895, by falling on a sidewalk in the city of Janesville.
The action was commenced in the circuit court for Rock county and upon the plaintiff's application the venue was changed to Dane county.
The plaintiff on former trials recovered judgments for \$1,500.00 and \$1,700.00 respectively, which were reversed for error.
The principal issues were:
Whether the walk was unsafe; whether the city had notice; whether the plaintiff was in the exercise of ordinary care; whether the plaintiff was using the walk as a traveler or for the purpose of a play-ground; whether the plaintiff was injured by falling on the walk or from a division fence, and as to the damages sustained by plaintiff by reason thereof.
The plaintiff sustained an ordinary fracture of the outer bone of her left leg on June 5th, 1895. Upon her part it is claimed that the injury was received by falling on a sidewalk on the east side of Cherry street, in front of the premises owned by Wilbur F. Carle and about the second board north of the line of the division fence, between the Carle and Denning premises, which is the next lot south of the Carle premises.
The case was argued in the supreme court on Sept. 6th, City Attorney Burpee appearing for the city, and J. J. Cunningham for Miss Collins. To say that City Attorney Burpee feels good over the decision is putting it mild. He deserves great credit for his victory.

FRATERNAL ORDERS GROW.

Immense Strides Made By Mutual Insurance Organizations.
At the Woodman head office there is a report of the proceedings of the national fraternal congress, which met in 15th annual session at Detroit, Mich., last month.
The report of the committee on statistics shows that during the last year the fifty-one societies affiliating with the congress admitted 555,064 new members. Of this number the Modern Woodman society gained 109,464 or fully 18 per cent.
The average amount of each new policy written during the year was \$1,321. The average amount of each policy in force at the close of the year was \$1,606, a decline of nearly \$100 per policy during the year.
The total insurance in force—\$4,585,679,932—shows a net increase during the year of \$401,852,982. Of this amount the Modern Woodman society gained more than \$178,000,000, which exceeds 44 per cent. of the total new insurance written by the fifty-one societies. The total number of deaths reported was 23,605, or a death rate of 8.76 per cent. for 1,000 members, based on the average membership of the year. This is a decrease in the death rate compared with the year previous.
The total amount of insurance terminated by lapsation during the year was \$385,286,861. The lot number of members who lapsed was 243,946, making the lapse rate about 90 to each 1,000 members.
The average cost per \$1,000 insurance in fraternal congress societies during the year was \$9.47, based on the average of insurance in force during the year, and the total disbursements footed \$43,705,540.

An Old Resident of Rock County Gone.

News comes to us of the death of Mrs. Prudence C. Squire, wife of Wm. C. Squire, a pioneer resident of Rock county. She died in Los Angeles, Cal., where she had resided for the last sixteen years, of pneumonia, on Sept. 11th, after an illness of two weeks, and at the age of fifty-five years. Mrs. Squire was the daughter of Mr. and Mrs. Elijah Hyatt, of Indian Ford, and came with them to Rock county from Oswego, New York, where she was born, when a mere child. At the age of seventeen she was married to Wm. C. Squire, who lived in the town of Fulton. Three children blessed their married life, only one of whom, Mrs. Nellie Drogold, and the husband, still survive her. The last ten years that she lived in Wisconsin she spent in Emerald Grove, where Mr. Squire kept a general merchandise store with his cousin, A. C. Munger, of this city. Mrs. Squire had always been in delicate health. Her husband having moved to California for this reason. The past two years they had been living at Ocean Park, a resort on the coast, only a short distance from Los Angeles, where Mr. Squire had a store, but had recently sold out, and were enjoying themselves by visiting the various places of interest in Southern California. It was on the

occasion of the celebration of Wisconsin Day, August 22nd, at Long Beach, that she took the fatal cold, being just three weeks previous to the day of her funeral.
This day she enjoyed very much, meeting a large number of her old friends and neighbors. After this they visited Catalina Island, lying about thirty miles out from the mainland, and the most beautiful summer resort on the Pacific coast, but Mrs. Squire was not able to leave the house during the ten days' stay here. It was with great difficulty that she reached home, where she lived only one week. Mrs. Squire was of a retiring and unselfish disposition, a devout Christian, and a devoted wife and mother. Her last words were: "I am going home, I cannot stay here always."

ASTHMA INSTANTLY RELIEVED.

Dr. R. Schiffman Astounds the Public With the Success of His Treatment.
Residents of this place were astonished by notifications in these columns that the celebrated physician, Dr. Rudolph Schiffman, would make public test of his remedy in this city on Sept. 19. He invited every man woman and child suffering with asthma to call at E. B. Helmstreet's drug store, and obtain, absolutely free, a trial box of his medicine. Dr. Schiffman adopted this novel way of introducing his treatment, believing that a free personal test would be the best and only way to overcome the prejudice and skepticism of thousands of asthmatics who had given up in despair after going through the whole range of so-called cures. He has in this manner proved the efficacy of his remedy, and without asking the public to spend a penny. Dr. Schiffman hopes that every sufferer in this town obtained one of his free samples. He fears however, that there some few who did not, before they were all given out. In order to give a fair opportunity to those who have not already used the remedy, and also as a guarantee of good faith, he has now requested this paper to announce that he has arranged with the above druggist to refund the money to any person who purchases of him either a 50c or \$1.00 package of Schiffman's Asthma Cure between now and October 25th, and finds that it does not do exactly as is claimed for it; the only condition being that they return not less than three-fourths of the package to him. Dr. Schiffman claims that in every case of true asthma his remedy will give immediate relief—usually within fifteen seconds; always within a few minutes. It has positively, permanently cured thousands of cases which were considered incurable.

MAPS AT LOW PRICES

Hixson Rock County Maps at Less Than Cost.
The Gazette has a number of the Hixson maps of Rock county published in May, 1900, which will be sold at the low price of \$2 each. The price does not cover the cost of production and is much less than they originally sold at. They are made on a scale of 1 1/2 inches to the mile, mounted on cloth 41x47 inches, and cover the county in detail giving cities, villages, sectional lines, number of section, school houses, town houses, cemeteries, roads, streams, number of acres contained and name of owner.
Every land owner, as well as anyone who has occasion to note the geographical condition of the county cannot well afford to be without one.
Regular meeting of the O. E. S. at Masonic hall at 8 o'clock Wednesday evening. A full attendance is desired as business of importance will come before the meeting. The O. E. S. study class will meet at the hall Wednesday afternoon at three o'clock.

REFLECTIONS OF A BACHELOR.

First you down the drinks and then the drinks down you.
You may make a mistake if you try to kiss a girl, but you may make a bigger one if you don't.
When he is asking a girl to marry him, the stuttering man has just as good a chance to make her understand him as anybody else.
The church's strongest card with most people is at the two ends of their lives—when they are coming into the world and when they are going out of it.—New York Press.

On An Overland Trip.

Mr. and Mrs. Sherburn Becker were in the city yesterday afternoon with their tandem "T" cart on an overland trip from Madison to Milwaukee. They left Madison yesterday and arrived in this city today. They left this afternoon for Lake Geneva, from which place they go to Fox Lake, where they have a summer home. From there they will continue on to Chicago, and from there back to Milwaukee. Mr. Becker drives a very handsome and stylish outfit. He had a gray horse in the lead and sorrel following. The cart was painted yellow and was very showy. A footman in livery accompanied the travelers.

Excursion Rates to Beloit, Wis., via C. M. & St. P. R'y.
Sept. 27, 28 and 29, good to return until Sept. 29, on account of races.
Henry Heitz of Beloit is in the city.

Headache

Is often a warning that the liver is torpid or inactive. More serious troubles may follow. For a prompt efficient cure of Headache and all liver troubles, take

Hood's Pills

While they rouse the liver, restore full, regular action of the bowels, they do not grip or pain, do not irritate or inflame the internal organs, but have a positive tonic effect. 25c. at all druggists or by mail of C. I. Hood & Co., Lowell, Mass.

THE KINDERGARTEN WILL BE A SUCCESS

Enthusiastic Meeting Held in the Parlor of Congregational Church Yesterday Afternoon.

There is every indication that the Kindergarten association is an assured success. At the meeting held in the parlors of the Congregational church yesterday afternoon about twenty ladies met with Rev. Robert C. Denison, who started the movement for the formation of the association.

The plans for the association, as proposed at the former meetings, were discussed and met with general approval. These plans call for the formation of a society in which the twenty mothers, who had partially arranged for a private kindergarten this winter, will have the privilege of paying \$20 each and securing places for their children in the kindergarten. Then there will be at least one hundred other members of the association who are willing to pay \$3 or more each year for the purpose of establishing a kindergarten. The accommodated forty children and the school proposed for this second twenty children will be received in the order of the application after the permanent working organization of the association. The distinction securing the first twenty children a place in the school is a just one because the arrangements for the private kindergarten were almost completed and were abandoned in favor of this broader movement.

The ladies present at yesterday's meeting were very enthusiastic in favor of the proposed plan and several of them took lists of people whom they thought would be interested in the association. These ladies will see their friends personally as soon as possible and report to Rev. Denison. As soon as the reports are all in the association will be organized. Those who have charge of the undertaking will be very glad if people who are willing to become members of association will notify Rev. Denison without waiting to be called on.
A search for an available room is being made and the matter is being pushed as rapidly as possible. It is hoped that arrangements may be completed so that the kindergarten may be opened by the middle of October at the latest.

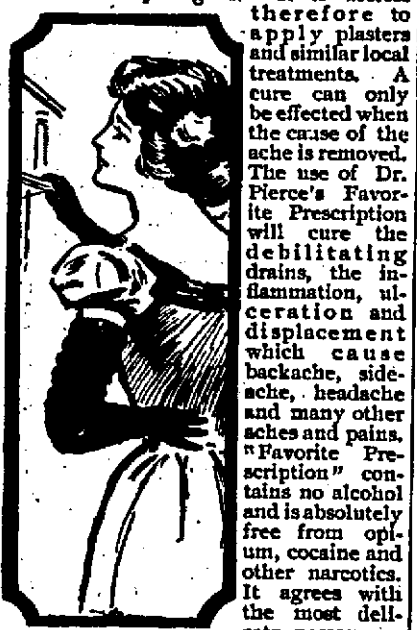

BARKER'S CORNERS.

Barker's Corners, Sept. 24.—The Ladies' Aid Society will meet with Mrs. Rabyer this week, Friday afternoon, Sept. 27.
Those starting to high school from our vicinity are Lizzie Pope, Cora Shoemaker, Ava Dutton, Phebe Taylor, George Simmons.
Ernest Taylor left Tuesday to attend school in Toledo, Iowa.

Miss Grace Lighthizer left last evening for Madison where she will visit a few days among friends and relatives.

Backache.

So many women suffer from it. It mars alike their hours of work and pleasure. Backache is generally a symptom of derangement of the delicate womanly organs. It is useless therefore to apply plaster and similar local treatments. A cure can only be effected when the cause of the ache is removed.

The use of Dr. Pierce's Favorite Prescription will cure the debilitating drains, the inflammation, ulceration and displacement which cause backache, sideache, headache and many other aches and pains. "Favorite Prescription" contains no alcohol and is absolutely free from opium, cocaine and other narcotics. It agrees with the most delicate persons.

"I took your medicine six months and I feel now like a new person," writes Miss Annie Stephens, of Belleville, Wood Co., W. Va. "I have no backache, no headache, no pain anywhere. I took seven bottles of Dr. Pierce's Favorite Prescription, and seven bottles of his 'Golden Medical Discovery.' I think there is no medicine like Dr. Pierce's. I can't speak highly enough of your medicine for it has done me so much good. I don't feel tired as I used to, nor sick. I feel well and think there is no medicine equal to Dr. Pierce's Favorite Prescription."

The Medical Adviser, 1008 pages, sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for paper covers, or 31 stamps for cloth, to Dr. R. V. Pierce, Buffalo, N. Y.

WEAK DIGESTION.

Indigestion and Dyspepsia have wrecked many lives. People who are weak and miserable should know that health would return if the digestion were made normal. This is just the condition Hostetter's Stomach Bitters brings about. It cures constipation, biliousness, nervousness, liver and kidney troubles, and produces sound sleep. It will also prevent Malaria, Fever and Ague.

It has no EQUAL. HOSTETTER'S STOMACH BITTERS.

CZOLGOSZ IS FOUND GUILTY

Jurors Return Verdict of Murder in First Degree.

PENALTY WILL BE DEATH.

The Prisoner, Pale, Perspiring and Weak, Hears His Doom Pronounced—Jury Stays Out 38 Minutes to Avoid Appearance of Undue Haste.

Buffalo, Sept. 25.—Leon F. Czolgosz, the arch exponent of anarchy, the murderer of a defenseless man, the enemy of law and authority, heard for the first time the voice of retribution directed at himself, pronouncing death for the assassin of President McKinley. It was 1:25 o'clock in the afternoon when the jury, after thirty minutes of deliberation, marched back into the court room with the message of the law. Czolgosz had heard the story of his supreme crime from many lips. He had listened to the final accusations of the prosecution, he had seen the tears drip from the furrowed cheek of Judge Lewis as that old jurist mentioned the untimely taking off of William McKinley.

Refuses to Testify.

He had watched with vacant glances the faces of the twelve men in whose hands lay his fate. He had heard the final instructions of Judge White, and he had seen the jury, with pale faces and bowed heads, retire for their ultimate decision. All day from 10 o'clock a. m. he had maintained the old posture of steadfast indifference which marked his conduct since the shooting. Three times his lawyers asked him if he would not appear on the witness stand to testify in his own defense. Each time he sullenly shook his head and stared fixedly at the floor. Not a word was spoken in his defense. The pleading of Judge Lewis was verbally for justice, for law, for the obliteration of hatred and prejudice. But the tears that fell from his old eyes as he referred to the slaughtered President were more eloquent than a world of evidence against the prisoner.

Face Shows Pallor.

It was 4:25 when the jury room door opened, and the bailiff led the men back to their places. The roll was called. Czolgosz was paler than usual as he looked upon his judges. His left hand stole into the pocket of his coat, and as he wiped the beads of perspiration from his forehead his eyes were closed and the arteries in his pale temples could be seen pulsating violently. His hand did not tremble, he did not shrink, but the new pallor which spread across his face was ashen and death-like as he listened to the voice of the clerk:

"Have you agreed upon a verdict?"

"We have," said Foreman Henry W. Wendt, rising.

"Gentlemen of the jury, what is your verdict?"

"Guilty of murder in the first degree as charged in the indictment."

Justice White's Charge to Jury.

Justice White began his charge to the jury at 5:20. He arose from his seat and stepped to the side of the bench nearest the jury box. He said: "Gentlemen of the jury, in this case the defendant has acknowledged his guilt. Such an acknowledgment in such circumstances cannot go to the jury or the court. The law requires that the defendant charged with such a crime must be tried. You must consider all the evidence that the people have submitted to you. You are the sole judges of the facts in this case."

Czolgosz Back in Jail.

Upon hearing the verdict court was at once adjourned. Czolgosz was immediately handcuffed to his guards and hurried from the court room down stairs to the basement and through the tunnel under Delaware avenue to the jail. He appeared to be in no way affected by the result of the trial.

Czolgosz Would Make Speech.

Czolgosz wants to make a speech in open court. It is his purpose to seize his opportunity when it comes and endeavor to make himself out a martyr to principle. This is according to the two detectives, who usher him into court handcuffed to their wrists. These detectives are Geary and Solomon, who arrested the assassin in the music hall and rode with him to the carriage from the scene of his crime to his place of confinement.

Geary says the murderer told him yesterday on the way from the county jail to the court house that he wanted to talk for himself. The detective told him that he would be given his chance before sentence was passed.

Whether the prisoner's nerve will carry him through the ordeal of a speech in court is a matter of considerable conjecture on the part of those who have watched his actions. The hoarseness of his voice when he spoke the word "Guilty" yesterday showed a tenseness of emotion beneath his calm exterior that evidenced difficulty of control.

Lewis L. Babcock, who as a member of the Pan-American committee of arrangements, saw the actual shooting of the president, was the first witness of this session. He graphically and with deep emotion pointed out where the president stood when he was shot and most dramatically identified Leon Czolgosz, as the man who fired the shots. Edward R. Rice, chairman of the Pan-American committee of ceremonies, also testified as to the actual shooting and identified Czolgosz. James L. Quackenbush, also a member of the committee, similarly described the actual shooting.

Dies in Texas Race Riot.

Somerville, Texas, Sept. 25.—A race riot started here last night about 10 o'clock and several hundred shots were fired before the negroes broke and fled. One negro, name unknown, is dead, and two men are seriously wounded. B. W. Long was hit in the left side and probably will die. J. O'Brien is wounded in the thigh.

Locomotive Blows Up.

Jackson, Mich., Sept. 25.—Michigan Central engine No. 590 exploded today at New Buffalo, killing Fireman Michael Wiley. Engineer J. B. Palmer and Brakeman F. J. Crouch were slightly injured. The explosion was caused by the blowing out of the crown sheet.

Big Horn Stage Robbed.

Cheyenne, Wyo., Sept. 25.—A man, supposed to be Nellis Lippacott, held up and robbed the Sheridan-Big Horn stage near Big Horn last evening. Sheriff Neilson of Sheridan took the trail with a posse and captured Lippacott in the eastern part of Sheridan county.

Money Not to Be Burned.

St. Paul, Sept. 25.—The will of Harvey Scott has been admitted to probate at Faribault, but the \$43,500 in cash which in the will had been ordered burned will be divided among the heirs, who reside in Pennsylvania, Ohio, Minnesota and California.

Condition Unchanged.

Canton, O., Sept. 25.—The report at the house is that Mrs. McKinley is about the same as for several days.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

WE GIVE ONE HUNDRED DOLLARS FOR ANY CASE OF DEAFNESS (caused by catarrh) that can be cured by Hall's Catarrh Cure. Send for circular free.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin. To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

External vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 3704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body. If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

WISCONSIN WEATHER FORECAST

Probably showers tonight and Thursday.

THE LIBRARY BUILDING.

In the latter part of the summer The Gazette published a cut of the new two story library building, with an outline of plans for the same, as submitted by Mr. Jennings, the architect employed.

Some discussion resulted, as the specifications called for more money than the board had to spend, and various changes were suggested among them a one-story building.

But little has been heard about the matter since, until yesterday, when Mr. Skavelem, a member of the library board, requested to have published an outline of a plan that he had prepared, and that was submitted to the board at their meeting on Monday night.

The Gazette understands that while there are good arguments both for and against a two-story building, that the board have practically decided, after careful consideration, that the plans of the architect, when properly modified, are the most desirable. The paper also understands that two members of the board prefer a one-story building, along the lines suggested by Mr. Skavelem.

The advocates of a two-story building argue, that the location, being at the foot of the hill, is against a one-story and high basement structure, and that as the building is to be permanent, that great care should be exercised in architectural designs, being careful to preserve the general utility of the building.

The Gazette has no disposition to stir up controversy, believing that the board composed of men and women in whom the people have implicit confidence, and who are devoting time and energy to a thankless task, are thoroughly competent to settle this question, and that their decision will receive the endorsement of public approval.

It might be well for the people to keep in mind the fact, that this public improvement is the result of legacies, augmented by an investment of \$17,000 on the part of the city. These legacies are a sacred trust, and the money should be so wisely invested that not only the present, but future generations, will commend the work. The city is prosperous and is increasing in wealth and numerical strength. The builders of today will be the veterans of tomorrow, but their work will endure, and there should enter into it, conscientious purpose, free from prejudice or personal preference.

The library building will stand as a monument to grateful memory, after the promoters are resting at Oak Hill. It should represent in the years to follow, the enterprise that characterizes the opening of the new century.

PULPIT ANARCHY.

The Kankakee Gazette, published by Charles Helt & Sons, a name familiar to old Gazette readers, finds a text for an editorial, on "A Question of Truth," in the following statement recently made by an Indiana preacher before an intelligent audience:

"I suppose there have been more lies told from the pulpit and sacred desk today than was ever known before. While I want to give all honor that is due Mr. McKinley, still when he was lying he was nothing but a political demagogue."

The audience possessed not only intelligence, but loyalty, and before the preacher was permitted to pronounce the benediction, he was treated to a coat of tar and feathers.

The Kankakee paper denounces the sentiment vigorously, and says in substance that however honest the preacher may have been in his convictions, that he had no right to give utterance to that sort of heresy.

The Gazette will put the case still stronger and say that any man in this fair land who is clothed with the dignity and authority of "the cloth" who will so far forget himself at such a time as this, as to give expression to fanatical and heretical sentiments, of that class, should not only be deprived of his insignia of holy office, but he should be given to understand most emphatically, that America has passed the point of toleration for this sort of blasphemy.

The Indiana audience was justified in meeting out to this cultured apostle of anarchy the punishment he so richly merited.

American sentiment is fully aroused on this question, and any man in any calling who attempts, directly or by inference, to insult the finer sensibilities of a grief-stricken nation, will discover to his sorrow that public sentiment classes him where he belongs, in the front rank of red-handed anarchy.

It is to be hoped that this sentiment, so thoroughly aroused today, will be kept at white heat, until every semblance of these vile teachings, whether from the pulpit, the schools, or the press, will be forever silenced.

FANATICAL PROHIBITION.

The Gazette has taken occasion, from time to time to denounce state and national prohibition, as a political measure, as both fanatical and impractical, and more or less criticism has resulted.

There has recently been reproduced from the columns of the "New Voice," a Chicago organ of prohibition, not a newspaper, a tirade from the pen of John G. Woolley, written at the close of the last campaign. It is so full of fanatical venom and so completely unmasks the spirit of the chosen leader of this crazy movement that it is worth recalling, in the bright light of tragic events. The tirade is headed:

Close in and Kill.

"Again I say, rejoice. The country has gone republican. It is true; the gin-mill re-enters the capitol in triumph; the voting 'church' belcher the stench of leaks and onions in God's face and calls it prayer. * * * William of Jolo with his canteens and slaves and wines and concubines is defeated to second term. For when doubtless he would have listened to the voice of christian motherhood saying 'avenged me of mine enemy,' he had to pull his forelock limp with the sweat of a coward and say, 'One is my master, even the saloons; and ye are all fools.' Now for the campaign of 1904; we have the liquor traffic cornered in the white house. For the honor of the church close in and kill."

"JOHN G. WOOLLEY."

This organ, the "New Voice," is supported by a class of intelligent people, many of whom profess Christianity. The contributors to its columns are some of them clothed with clerical dignity. The organ has never received much attention from the secular press, because of its indecency and blasphemy. And yet it has an intelligent, but erratic clientele, of men and women who are carried away by its sophistries, and poisoned by its disreputable and disloyal teachings.

It is about time for the prohibition party to wake up to the fact that the yellowest kind of yellow journalism, poses as a reformer, and that the teachings of such men as Woolley, however sincere they may be, are dangerous to the safety of the nation.

If anarchy is to be banished from American soil, root and branch, it will be as the result of forsaking heresy and fanaticism, both religious, moral and political, and cultivating good, hard, common sense.

COMMENDABLE.

Governor La Follette is to be commended for good judgment in appointing, as the auxiliary member of the state board of control, men who are qualified as specialists along certain lines of work. E. R. Petherick, a former member of the board, was selected by the governor to investigate the county asylums, with which work he was familiar.

When the work was accomplished Mr. Petherick was relieved, and the position given to Mayor Storm Bull, Professor in steam engineering at the state university. Mr. Bull will visit the various institutions and inspect the heating and lighting plants, and report as to their condition, a work that is important. When this work is finished some other expert will be employed, and the state will receive some benefit from the office that has frequently been used as a sinecure to reward political friends.

It was not so long ago that a lady attempted this work, and about the only thing she recommended in her report, was, that each of the institutions be furnished with a French cook. The report was filed, but the cooks failed to materialize. Governor La Follette's work along this line is intelligent, and results will benefit the state.

President Roosevelt assumes the responsible duties of the nation's chief executive, with the same spirit of intelligence and ability that characterizes the man. He possesses confidence in himself, as well as in his advisors, and his good judgment and hard common sense, will be equal to the great responsibilities forced upon him.

The Merchants' Club, representing the business men of San Francisco, placed its seal of disapproval on yellow journalism, by agreeing to withdraw support from the yellow coast paper. This is practical reform, and will accomplish more in regulating freedom of speech and expression, than any laws that may be enacted.

It is easy to recommend, but sometimes difficult to perform. Easy to talk, but not so easy to act. The drama of life today demands actors, and there is room and opportunity on the great stage of the nation, to win laurels. The feeling of personal responsibility is the role of highest honor.

The court of public opinion is now in session, and men, as well as measures, are before the bar of common justice. The verdict of disapproval so generally expressed, will be followed by a penalty that will be wholesome and effective. The session should be prolonged until the nation is freed from the last taint of anarchy.

Admiral Sampson retires from the navy after forty years of active service. His name will contribute honor to American history, and the greatness of the man will overshadow any

errors that may have resulted, either in speech or action, as he approached the age of honorable retirement.

Czolgosz, the assassin, maintains a sullen silence, but it will not establish his insanity, or lighten the verdict of dastardly guilt, that the world has already pronounced upon him.

Prosperity has killed populism in Nebraska, and Mr. Bryan, with his Commoner, will never be able to restore it to life and activity.

Kansas has a candidate for a cabinet position, should there be a vacancy in the agricultural department. Kansas is long on political ambition.

PRESS COMMENT.

Racine Journal: The very brutal attacks of the Carrie Nation woman upon President McKinley are not soon going to be forgotten.

La Crosse Republican-Leader: It ought not to be necessary for Uncle Sam to ask the president to sleep with two in a bed.

Madison Journal: It seems necessary to call the attention of the Milwaukee Journal to the fact that Hall Caine's latest story is "The Eternal City." "The Holy City" is a popular song. There is nothing holy about anything that Caine writes.

Fond du Lac Reporter: In giving Herr Most police protection from a New York mob the anarchist can learn a valuable lesson—that this country knows how to offer protection to men of all conditions, even to men who would destroy its foundations.

Marquette Eagle: Admiral Cervera would hardly have been able to confirm the statement of some of the witnesses of the Schley inquiry case, in that the squadron did not sail close enough to the Spanish fleet, Admiral Cervera probably wonders what more could have been destroyed than was.

Green Bay Gazette: Senator Allison says congress will undoubtedly make a thorough investigation of anarchy in the United States next winter and will do its utmost to pass suitable laws for the prevention of any crime in the future similar to that committed against President McKinley. This is encouraging and it is to be hoped that the investigation will extend beyond the investigation stage.

Fond du Lac Commonwealth: President Roosevelt continues to make new friends day by day, as he gets further into the duties of his high office. Not content with declaring that he intends to continue the policy of the administration and retain the McKinley cabinet he announces that he intends to make certain appointments which President McKinley would have made had he been spared. Accordingly, he will appoint Dr. Rixey, surgeon general of the navy. If the president keeps on as he has set out he will completely disarm any and all his critics.

Oshkosh Northwestern: It would be well to reserve some of the blame which is being lavished on the yellow journals for the people of depraved tastes who patronize and encourage that sort of thing, and thereby become directly responsible to a large extent for the evil. If there was no demand for so-called yellow journals there would be none printed, and the very fact that such papers thrive and flourish in this country discloses a condition of perverted taste by a considerable proportion of the reading public.

SOUND TO THE CORE.

A protective tariff is constructive, and has so proven in all our history.

"A Nation Rebuilt," may almost be the description of what has been done under Mr. McKinley's administration.

True statesmanship is creative, seeking ever to add to the sources of wealth in the country.—American Economist.

Open our ports freely to what we cannot produce at home—and to nothing else. That is "consistent republicanism," Mr. Babcock.

Our Low-Tariff and No-Tariff writers need a political dictionary giving the definition of reciprocity, as known heretofore.

For a long time after the Dingley act was passed the democratic press refused to credit the news of mills reopening, wages rising and money flowing in.

"The month ends with a horizon that is almost clear," says R. G. Dun & Co.'s report of the business situation. Somehow clouds and storms and Protection do not harmonize. Business disturbances melt before the operation of the Dingley law the same as ice under the rays of the sun.

PHILOSOPHY OF THE STREET

The writing of a book is more apt to be a mark of vanity than of genius.

Men who can always be found when wanted seldom have much else to recommend them.

People who are always hankering for sensations could create their own by jumping into the lake.

When a matter that concerns the public is shrouded in mystery, it is natural for people to suspect the worst.

There are lots of women in the world who seem to delight in taunting their husbands into doing things that give them an opportunity to pose as martyrs.—Milwaukee Journal.

SEMI-FINALS FOR VALENTINE MEDAL

The semi-finals for the Valentine medal took place yesterday afternoon on the grounds of the Siniissippi Golf club. The weather was perfect and some of the young ladies put up a game that astonished the male members of the club who followed the matches. The four contestants were Elizabeth Schlicker, scratch; Belle MacLean, handicap 15 and Misses Helen and Catherine Fifield with a handicap of 15 each. The drawings for partners resulted in Miss Schlicker and Catherine Fifield being paired and Belle MacLean and Helen Fifield.

Miss Catherine Fifield defeated Miss Schlicker two up and one to play and Miss Helen Fifield defeated Miss Belle MacLean four up and three to play. The ownership of the trophy for the next year will be decided in a match between the Misses Fifield to be played on Tuesday next.

Mrs. M. Seltz Was Hostess
Mrs. M. Seltz was the hostess at a very pretty party given at her home, 201 Center avenue, last evening as a farewell for Mrs. Lois Nichols, who has made her home in this city for thirty-seven years, residing on Center avenue all but two years of that time. About thirty of her lady friends and neighbors were the guests of Mrs. Seltz last evening and spent several hours very pleasantly in the enjoyment of the hospitality and each others' company.

An elaborate supper was served prettily and before the guests rose from the tables, Mrs. Nichols was presented with a handsome souvenir spoon, the gift of her old neighbors. The presentation was very happily made by Mrs. Peter Leahy, who enjoyed the distinction of being the oldest guest present, she being eighty-three years of age. After supper the balance of the evening was devoted to games of various kinds.

Industrial Crisis in Europe.
London, Sept. 25.—An industrial crisis is rapidly spreading throughout Europe. Crops are failures, mills closing and stocks falling.

Panama rebels notified American consul of contemplated attack on Colon, and are told that the United States would act promptly in case of any interference with transit across the isthmus.

DRY GOODS, CLOAKS, MILLINERY

AUTUMN

MILLINERY

OPENING....

Wednesday, September 25th.

The result of weeks of preparation will be seen during the opening display which takes place this week, and which will be as usual the most important event in the season's Millinery novelties. Miss O'Neil and her able corps of assistants have prepared lavishly and the result will be a showing on the same liberal scale that has characterized the displays of this department in past seasons. Pattern hats for every purse and no matter at what price, nothing in style is sacrificed, the same careful attention being given to the lower as to the higher cost creations.

In All Lines For Fall

New arrivals by every express. Children's and Misses' School Coats in the prevailing styles and at special prices. New dress goods and silks complete underwear lines for ladies, misses and children, Fur Scarfs and Gollars, and many novelties in small wares for the present season.

Archie Reid & Co.

DRY GOODS, CLOAKS, MILLINERY

THE ADVANTAGES OF ELECTRICITY

In these days of improvements cannot be over-estimated, and the electric light is among the most important. For stores, offices, residences or any place where good illumination is required, you can obtain a clear, brilliant light, without heat, at a small cost.

INSTRUCTOR OF VIOLIN

and all string instruments, also teacher of wind instruments. For 5 years teacher and leader of orchestra at School for Blind, Saturdays at 102 Locust Street. Telephone or call other days at School for the Blind.

A NOVELTY IN

[illegible]

POINTERS FOR MAN ON THE FARM

Very damp corn cribbed in October will shrink thirty per cent by the middle of February, while dry corn cribbed at the same time will shrink only about eleven per cent in the same time. When first husked fully twenty-five per cent of the weight lies in the cob, which is reduced to about twenty per cent, by spring. Shrinkage began this year in the field during July and August and did not wait until the corn was put in the crib. Problems of shrinkage will be studied in other years when the conditions are more favorable.

It will soon be time to get the old lantern fixed up for fall use. If the lantern is not safe it may be well to get a new one. It is better to get a new one than to have an expensive fire by reason of keeping an old, treacherous one. Have a place to hang the lantern when in and out of use. It should be ready to use at any time and upon the shortest notice. It will be dark when it is needed and no one will have either time or patience then to fix it.

It is not right nor fair that a man who promises to work the season through for a farmer should get up and go away at a time when the busy season comes, giving as an excuse some fancied injury or untoward move on the part of his employer. Neither is it right that a farmer should discharge a hired man for some trivial matter without giving him some notice. There are wrongs on both sides. Some men are hard to work for and others are imposed upon by men who will never make good hired men. Let there be a contract, which both shall live up to.

One reason for the deterioration of crops is due to the carelessness in the selection of seed. For this reason it is best to select nothing but the best seed of any kind. If not, the very best seed is selected from year to year there will be no deterioration.

Any kind of live stock can be easily controlled until given absolute freedom, after which it will require a good fence to restrain them. Let the fence get out of repair so that some uneasy and restless animal get out; let an animal get out half a dozen times and a good fence will be required to restrain it. For this reason it is well to keep all fences in good repair. I once had a sheep pasture that was so well fenced that the sheep could hardly be driven out of it through a gate after having been in the pasture for some time. At haying time the gate would be left open and the sheep would look through the gate, but none of them were forward enough to pass through.

There is satisfaction in knowing that shucking pegs are cheap. Get ready to husk as soon as the corn will keep. It will be ready sooner for the man who has a narrow crib than it will be for the man who has a wide one.

When hogs scratch against the fence and all projecting objects, it is barely possible they are infested with lice. An easy way to head a great many of them off is to set a few posts where the hogs frequent, cover them with pieces of burlap or wind them with old rope and keep them well smeared with lard and kerosene. They will soon learn to scratch at the medicated post. Sam says he has observed hogs standing

in line waiting for their turn to scratch.

As a rule we are prone to keep on working a machine until a weak place gives away and it is past using before we go for repairs. We will then hurry off to the shop and if there happens to be four or five farmers who have come ahead of us, we are out of fix generally. A machine usually does not give away until a busy time when we have a time for repairs. For this reason it will pay to look over machinery when the machine is not needed so it will be ready when a busy season arrives. In the winter is a splendid time to attend to such matters, and it will pay to have them done.

The man who will have plenty of seed corn to sell next spring is not sitting on goods boxes near the corner grocery. He knows where the corn is and what it is good for and his pocketbook will not have that tired feeling so common with the goods box agriculturalist.

The drouth has taught lessons that will be of lasting benefit to those who have been accustomed to continued prosperity. Some have said that they are blessings in disguise. It requires a drouth to teach some farmers what has been going to waste in the corn fields of the great West. There will be an abundance of feed for live stock in most localities, notwithstanding the drouth. Everything eatable will be saved. One man has made the weeds into hay in his neglected potato field, which is not a bad idea.

One very sure way to save hay is to make something else take its place. There can be no saving of hay by feeding it scantily. Fodder can take its place, and to get the most good from it it should be good. It must be cut in the right time, cured in the right way and kept good until it is fed.

When through with fall plowing don't put the plow away dull. Before the last day's plowing is done in the fall get the plow sharpened and plow with it one day when land is open and the ground in good condition to brighten the share. Grease the plow and put it away in a dry place and note how nice it will be for plowing when again needed.

Some men, for the first time in their lives, must face the problem whether they will have one sow and have her bring two litters in one year or whether they will have two sows and have the litters come only in the spring. Feeding two sows one year may cost more than feeding one. This is a problem that should be looked at on all sides. If two litters are reared the first will have to come early in order to be out of the way of the second litter—March or April for the first litter and August or September for the second.

It is stated by those who know that a separator will get at least four per cent more butter fat than by selling milk. If this be true, and I have no reason for disbelieving it, it means a saving of about \$10 on a good cow. It will not require many days to save enough to buy a separator the first year, and one will still have a separator that will make a good deal of clear money every year thereafter. —Wisconsin Farmer.

WOMAN'S POINT OF VIEW.

And now the woman who spent her last dollar on summer laments that she did not save it for a new Persian lamb coat.

You can tell a great deal about the character of a family from the week's wash that is hung out on the line to dry.

What some people need when they talk about waiting for inspiration is a good hard push.

The romance has begun to die out of a love affair when a girl will onions on the night she knows a young man is going to call.

Some women are like cats, some like dogs—they are so faithful.—Philadelphia Times.

Don't get side-tracked in business. Dullness sometimes passes for death. Men with rebains reach the goal. Rocky Mountain Tea puts gray matter into one's head. Smith's Pharmacy.

Seek Relief!

The great proportion of women who suffer never make a serious effort to benefit themselves. The most of them go on paying no attention to their little menstrual disorders, believing they will eventually wear off. They grow worse and worse every day. At the period of menstruation a woman is peculiarly susceptible to cold and other external influences and it is also the most favorable time for the development of hidden disease germs which may be lurking in the system. Any physician knows that disordered menstruation, falling of the womb and leucorrhoea are blighting lives in almost every home. No woman should neglect herself a moment after she sees indications of female diseases. Almost instant relief can be secured by the use of

WINE OF CARDUI

It will relieve you right in your own home. Will you accept the testimony of Mrs. Beigler and thousands of other women and really seek relief today? All druggists sell \$1.00 bottles of Wine of Cardui.

100 Chicago Street, Fort Wayne, Ind., March 27, 1900.

Your Wine of Cardui has done a world of good for me. I have used five bottles of the Wine and one package of Theobald's Black-Draught. And since I have started to use it I will not be without it in the house. It helped my sister in Toledo, who did not menstruate as she ought. She was sixteen years of age and nothing else helped her. I was in a very bad state myself before I used your medicine, but I found relief in three days. And now I feel like a new woman and do all my housework and washing, which I could not do before I took Wine of Cardui. I would be very glad to write any poor woman and tell her how I suffered before I used Wine of Cardui.

Mrs. C. P. BEIGLER

LAXAKOLA

THE GREAT TONIC LAXATIVE

At some time, if not habitually, you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, backache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or some of the other symptoms and disorders which tell the story of bad bowels and an impaired digestive system. Laxakola will cure you. It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membranes of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels will move regularly, your liver and kidneys will cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothers who had been seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, find Laxakola an ideal medicine for children. Children like its taste and ask for it. It keeps their bowels regular without any pain or griping, and acts as a general tonic at the same time. It will assist nature, aid digestion, relieve restlessness, clear the coated tongue, reduce fever, cause refreshing, restful sleep and make them well, happy and hearty.

Laxakola, the great laxative tonic, is not only most the efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, 25c and 50c, or send for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., or 315 Dearborn Street, Chicago.

Trade supplied by King's Pharmacy and People's Drug Store.

DR. LYON'S French Periodical Drops

Strictly vegetable, perfectly harmless, sure to accomplish DESIRED RESULTS. Greatest known female remedy.

CAUTION Beware of counterfeits and imitations. The genuine is put up only in paste-board Car- ton with fac-simile signature on side of the bottle, thus: Send for Circular to WILLIAMS' MED. CO., Sole Agents, Cleveland, Ohio.

THE BEST IN
SCHOOL
...SHOES...

are none too good. We have always made A SPECIALTY of this line and have just received large invoices of Boys' and Girls' shoes made "particularly" for the school. Others make more profit on their shoes; but our foot shapes, with all their novel attachments of this year's styles are the very best money could buy for wear and foot comfort.

LITTLE GENTS' 90c to \$1.35
YOUTH'S \$1.15 to \$1.75
BOY'S \$1.25 to \$2.50

Misses and Children's from \$1 and \$1.25 a pair up.

FOR A PACIFIC CABLE.

Company to Lay a Line from California to Philippines.

Articles of incorporation were filed at Albany having in view the laying of a cable from the Pacific coast to Hawaii and the Philippine Islands. The company will be affiliated with the Commercial Cable company, and all its incorporators are officials of that corporation. The length of the cable will be about 8,500 miles. The part first laid will be from California to the Hawaiian Islands, a distance of about 2,200 miles. It is expected that this portion will be laid and in operation within nine months. The time required for the laying of the remainder of the cable from the Hawaiian Islands to the Philippine Islands will depend upon how quickly the cable can be manufactured, but may be completed in two years. According to the articles of incorporation the company's lines are to begin in New York city, although from that point to the Pacific coast the line of other companies may be used. The capital stock of the company is to be \$100,000, divided into shares of \$100 each. The term of existence of the company is fixed at 1,000 years.

LIGHTNING STRIKES A SCHOOL.

Teacher and Thirty-six Pupils Stunned and Three Badly Burned.

St. Cloud, Minn., Sept. 25.—During a violent storm at 9:30 o'clock a. m. lightning struck a schoolhouse, prostrating Charles Weibner, the teacher, and the thirty-six pupils. The following children were severely burned by the fluid: Amanda Borwig, aged 11; Pauline Lauer, aged 5; Clara Streitz, aged 12. While these three are badly injured, it is hoped all of them will recover. The other pupils were stunned and bewildered, but not seriously injured. As soon as they recovered their senses they dashed into the open air. The building was wrecked, but did not catch fire.

MANY HURT IN COLLISION.

Passenger Trains in Smash-Up on New Jersey Central Road.

New York, Sept. 25.—In a head-on collision between a Central Railroad of New Jersey passenger train and a Philadelphia and Reading passenger train in the afternoon near Somerville, N. J., three persons were seriously hurt and several others slightly injured. The seriously hurt are H. H. Jalette of Philadelphia, skull probably fractured; the Rev. S. V. Dickson of the American Tract Society; Frank Marlon, fireman of the Central's train, internal injuries and suffering from steam inhalation. These three are at the Somerville hospital.

Poisoned by Mosquito Bite.

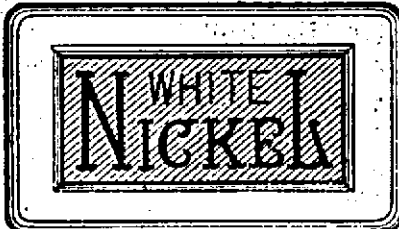

Mrs. Thomas Eaves, living at Fourth and Walnut streets, Gloucester, N. Y., was bitten on a finger of her

right hand several weeks ago by a mosquito. Her hand became swollen and she visited the Cooper Hospital, Camden, where physicians found it necessary to amputate the finger. It is supposed that the mosquito which bit her had been on some poisonous weed.

Death in Fire Crash.

Chicago, Sept. 25.—In a fire which destroyed the plant of Freund Brothers, varnish manufacturers, 3140 Canal street, one fireman gave up his life for duty's sake, another is expected to die from injuries received, and several others, Chief Musham among them, were so badly injured that they will carry the scars for many months, if not forever.

PATRONIZE HOME INDUSTRY.

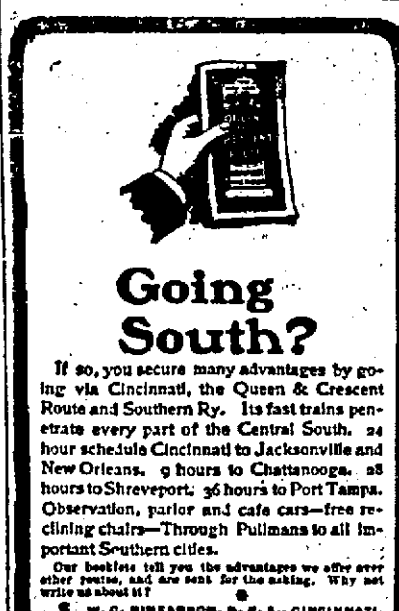

SOAP

Brings Sunshine and Happiness

Into every home where used. I am anxious to get it into every kitchen in the city.
Sold By All Grocers.
Accept no other. Enterprising mfrs. in other places are pushing cheap goods which are impure and dear at any price.
